

National Health Council
Patient Engagement Fair-Market Value Calculator Toolbox
June 26th – 15h CET / 9am EST

Speakers:

- Eleanor Perfetto / NHC
- Nicholas Brooke / PFMD

Description

To ensure that all stakeholders confidently enter into ongoing, compliant, and sustainable engagement efforts that effectively drive health care innovation based on patient and caregiver insights, the NHC has created a toolbox to support sponsor-patient engagement. These tools include a publicly accessible, online fair-market value calculator, patient-friendly contract templates, compensation and contracting principles for engaging with patients, and other tools.

These tools will be launched on the NHC website at the end of June 2020.
